

## Five reasons for the GDCh

### I experience community

The GDCh brings you together with people who share your interests – you can only find these contacts in the GDCh.

### I can get involved

Under the aegis of the GDCh you can also realize your project – for yourself, for your community, for the benefit of all.

### I profit from permanent exchange

The GDCh has numerous sources of information from which you can draw – relevant for your research projects and your professional advancement.

### I promote interest, achievement and innovation

Your membership fee funds prestigious chemistry awards and makes researchers proud, you help turn ideas into products and invest in science education at all levels.

### I am proud to be to be a member

By becoming a member of the GDCh, you express your commitment to an organisation characterised by diversity, relevance and more than 150 years of tradition, committed to discovering chemistry for a better world.

## Join and Be Part of our Dynamic Network

contacts · competence · cooperations

About 30,000 members contribute to making the German Chemical Society (GDCh) a strong and dynamic scientific organization.

Join GDCh and profit from an expert society distinguished by comprehensive services, high network activities and continual growth!

## Our Network

The GDCh is a lively network of 60 local associations, 54 regional forums of the JungChemikerForum – our young members are involved here – and 27 divisions from the Division for Analytical Chemistry to the Association for Chemistry and Economics.

## Our Members' Magazine: Nachrichten aus der Chemie

Stay up to date with articles and reports from science, business and the GDCh. Don't miss any important dates from the community or the annual chemical trend reports.

## GDCh.app

Chemistry comes to life in the GDCh.app with articles, videos, podcasts and events from the fields of science, business and society. Registered members have full access to the magazine Nachrichten aus der Chemie and the Chemical Community. You can network and make new contacts and are automatically informed of news via push.

## Career Service

GDCh members start and promote their Career with the GDCh career service. Use the job market to find your job. Improve your position in salary negotiations with information from our salary survey. Be one step ahead of the competition with our application workshops.

## Scientific Journals

Up to 15% discount on high-quality journals such as *Angewandte Chemie*, *Chemie in unserer Zeit* and journals from ChemistryEurope.

## Charity and Public Mission

With their membership, GDCh members support the ideational goals of the GDCh to promote chemistry in science, research, teaching and work and help to bring chemistry and its connections closer to the public.

## International Associated Membership

As part of the International Associated Membership, our members can benefit from the advantages of membership in other European sister societies.

## Build your expertise with one of 33 specialty groups and working groups:

- Analytical Chemistry
- Chemistry of Construction Materials
- Biochemistry
- Detergent Chemistry
- Chemistry & Energy
- Chemical Education
- Chemists in Civil Service
- Computers in Chemistry
- Electrochemistry
- Solid State Chemistry & Materials Research
- Freelance Chemists and Owners of Free Independent Laboratories
- History of Chemistry
- Coating Chemistry
- Society of Food Chemistry
- Liebig Association for Organic Chemistry
- Magnetic Resonance
- Macromolecular Chemistry
- Medicinal Chemistry
- Sustainable Chemistry
- Nuclear Chemistry
- Patent Law
- Photochemistry
- Senior Expert Chemists
- Environmental Chemistry & Ecotoxicology
- Association for Chemistry and Economics
- Society of Water Chemistry
- Wöhler Association for Inorganic Chemistry
- Working Group of German University Professors for Chemistry
- Working Group Vocational Education
- Working Group Chemistry in Medical Education
- Working Group Chemistry and Society
- Working Group Fluorochemistry
- Working Group Phosphorus Chemistry
